

# Sarah Youde - Scrapbooking Resume

---

*I have been crafting since I can remember having grown up with a Mum who has always been adept at countless crafts. I started knitting when I was about 7 and was designing Fair Isle clothes for my dolls by the time I was 8. I began paper crafting when I had children as a way to create pretty photograph albums; this coupled with my life long love of stationery and photographs meant that scrapbooking soon became a favourite craft. I also love to make cards, cross stitch, knit, crochet, sew and try my hand at any craft given the opportunity!*
